Art Entry Labels

Make the best use of the updated labels!

We all know how important it is for our work to be presented in the best way possible. To that end, it was decided to update the Entry Labels by redesigning the form and printing them on a quality paper.

Other than your work, this label may be the only link between you and your collector.

Please fill in the information *WITH CARE*, making sure all entries are the same as on your Registration Form and that all Categories are current ones in use for this show. *Please* remember to fill these out and attach to your work before Art Drop-Off Day.

PLEASE READ THIS

Make sure your labels match your entry form - they must be correct in order to be accepted into the show

Last minute changes cause extra work, expense & increase the chance of error.

For your own records, and to help make the process of filling out Entry Labels easier and more accurate, make a copy of your Official Entry Form before mailing it in.

Let's all work together to have a wonderful, profitable and fun show!

Thanks for your help in achieving this...
